

Navigation Tools for the San Francisco Bay Region

Enhancements to real-time observations available through the San Francisco PORTS

- <http://tidesandcurrents.noaa.gov/ports/index.html?port=sf>

The new **San Francisco Operational Forecast Model**, providing nowcasts and forecasts out to 48 hours for water levels, currents, salinity, water temperature, and winds

- <http://tidesandcurrents.noaa.gov/ofs/sfbofs/sfbofs.html>

A new tool offering observed and predicted **surface currents** measured by High Frequency Radar

- <http://tidesandcurrents.noaa.gov/hfradar/Hfscm.jsp?port=SFCA>

Updated tidal current predictions using the results of a 2012-2013 current survey in San Francisco Bay and a new HOAA Current Predictions tool (beta)
